FOREWORD

This volume of the Inspection handbook has been prepared for the use and guidance of Airworthiness Inspectors (Maintenance & Engineering) in the performance of their duties.

It is emphasized that all matters pertaining to an inspector's duties and responsibilities cannot be covered in this manual. Inspectors are expected to use good judgement in matters where specific guidance has not been given. Changes in aviation technology, legislation and within the industry will necessitate changes to requirements.

This manual was prepared by Mr. Khamphan SOUYANIAM, the DCA airworthiness officer on the frame work of COSCAP-SEA for the use and guidance of Airworthiness and Inspectors in the performance of their duties.

Comments and recommendations for revision/amendment action to this publication should be forwarded through the Director Airworthiness Section to the Flight Safety Division, for approval of the Director General of the Department of Civil Aviation of Lao PDR (DGCA).

Director General
Department of Civil Aviation of Lao PDR

Yakua LOPANGKAO

Remarks:

DGCA is granted power to sign these inspectors manual by the Minister under the Ministerial Decision Nr. 16948/MPWT dated 16 December 2009.
